FROM THE SUPERINTENDENT

*By Eric J. Smola,
Superintendent*

Congratulations
Class of 2021!
May your Viking
experiences help

pave the way for new adventures.

As we close the 2020-2021 school year, I am filled with pride and awe for the simple fact that our doors remained opened everyday for in-person learning. This was no small feat! The words "THANK YOU" are not strong enough to fully encompass the gratitude extended to our faculty, staff, administrators, students, parents, and board members for their dedication, hard work, and cooperation while working through a world altered by COVID.

This past year forced us out of the predictable, made us stretch our abilities, and taught us never to take anything for granted. Looking ahead, it is exciting to see progress and more traditional events returning. We are excited to break ground soon on renovating and expanding our high school locker and weight room facilities, a project that was placed on hold a year ago. We are finding our way forward.

In addition to expanded locker rooms, the project includes room for cardio and weight equipment as well as areas for training and rehabilitating injured athletes, extra classroom space that can double as a team meeting room, and increased storage. According to Eric Smola, superintendent, this project will enable Evergreen to provide equal facilities for both male and female athletes, a need that has gone unfulfilled for far too long.

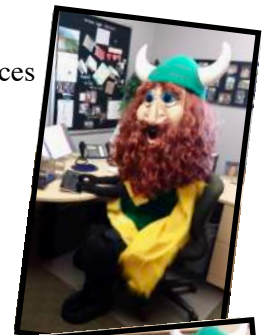

IMMUNIZATIONS
REQUIRED FOR
★ 2021-2022 ★
SCHOOL YEAR

Ohio law requires students entering kindergarten, 7th grade, and 12th grade to have certain vaccines/immunizations before school begins in August.

- Kindergarteners must have a complete set of immunizations on file at EES.
- Incoming 7th graders must be vaccinated against tetanus, diphtheria, and pertussis (Tdap). Since most children received their last vaccine dose when they entered kindergarten, a booster will be needed before school resumes this fall. Ohio law also requires a vaccine to prevent meningitis, and children have not previously had this vaccination. Both requirements must be completed before school starts in August.
- Incoming 12th graders must be vaccinated against meningitis. If your teen has already received the MCV4 meningococcal vaccine and it was given after their 16th birthday, another vaccine is not necessary. Please provide a copy of the vaccination record to the school. A dose prior to 7th grade does not meet the requirement and an additional dose is needed prior to beginning 12th grade this fall.
- While a COVID vaccine is not required to attend school, it is recommended students 12 years and older receive it prior to school starting in August.
